As per discussion with concerned banks, the benchmark will be achieved by aggressive marketing including camps, loan melas, society connects, personal contacts etc.

The LDMs can conduct various credit outreach programme with coordination with different member banks and organise various camps in which they can educate the people about various credit facilities, Govt. subsidy, interest concessions and incentives of the schemes to motivate the attendees to avail the loans as well as improvement of the credit portfolio of bank branches. PMFME- PM Formalization of Micro Food Processing Enterprises Scheme

Background:

The unorganized food processing sector comprising nearly 25 lakh units contributes to 74% of employment in food processing sector. Nearly 66% of these units are located in rural areas and about 80% of them are family based enterprises supporting livelihood in rural household and minimizing their migration to urban areas. These units largely fall with in the category of micro enterprises. Taking cognizance of the contribution of the unorganized micro food processing enterprises and the challenges that impede their performance, Ministry of Food Processing Industries (MoFPI) has launched "PM Formalization of Micro Food Processing Enterprises Scheme (PM FME Scheme)" through a package support and services. The objectives under the scheme, inter alia, include:

(i)Capacity building of entrepreneurs through technical knowledge, skill training and hand holding support services;

(ii)Increased access to credit to existing micro food processing entrepreneurs for technology upgradation;

(iii)Support to Farmer Producer Organizations (FPOs), Self Help Groups (SHGs), Producers Cooperatives & Cooperative Societies along their entire value chain to enable microenterprises to avail common services.

(iv) Support for transition of existing enterprises into formal framework for registration under regulatory framework and compliance;

(v)Integration with organized supply chain by strengthening branding & marketing;

Guidelines on Atal Pension Yojana (APY), PFRDA are as under:

Atal Pension Yojana, a GOI guaranteed pension scheme has crossed 10.98 Lacs subscribers registered as on 31-03-2026 in NCT of Delhi. But considering the potential customers of each bank, banks are still not actively participating in sourcing APY accounts in desirable manner.

Deptt. of Financial Services (DFS), Ministry of Finance/ PFRDA monitor the progress of APY on a periodical basis but a very close monitoring at the levels of District and Block levels would help in activation of all Bank branches towards APY and facilitate reaching the target allotted to each bank by GOI. APY targets are allotted on yearly basis by DFS and the targets are based on the number of branches of each Bank.

BC Certification Framework:

In order to ensure the competence of BCs and to promote quality delivery of financial services, a graded certification/training program for BCs had been introduced. This would enable BCs with a good track record and advanced training to be entrusted with more complex tasks such as handling/delivery of financial products that go beyond deposit and insurance. The Reserve Bank issued the necessary framework for establishing a certification program for BCs.

In the above backdrop, IBA had constituted an Independent Governing Council to develop standard course content that could be mandated as a Master Module for entry level examination for BC. As per mandate, the syllabus for Basic Certification Course was devised and IIBF published the course in 2018 and also commenced holding examination for the purpose.

In the aforesaid framework for BC certification, RBI has made it mandatory for certification at entry level. Banks should, therefore, ensure that the BCs appointed by them either as individual BCs or through

Corporate BCs are certified before commencement of operations. Existing BCs who are not certified will be required to get themselves certified within six months. As of now IIBF is the only institute entrusted to provide certification so as to maintain credibility, uniformity, standard and quality. IBA is in the process of deciding the contours of Advanced Level Certification.

The Banking Sector is the lifeline of a country's economy and directly affects its growth and development. In order to ensure continuous growth it is important that banks are robust in managing the stress, particularly caused by NPAs.

Recovery of Advances

Timely recovery of loans is essential for financial institutions to complete the credit cycle. Loans are assets in the books of banks which accrue interest income. Any loan and advance turning into NPA affects the earning of interest and consequently profitability. The NPAs affect the landing capacity of the banks, therefore affects the potential genuine borrower as well. It has assumed greater importance ever since IRAC and

capital Adequacy Norms have been made the essential parameters for judging the health of Banks. The increasing NPAs have been a major cause of concern for the banks.

Recovery Position:
The statements showing recovery position of various Banks in the NCT of Delhi under Agriculture is given at Annexure-61.

AGENDA ITEM NO. 22	CERSAI-Central KYC Record Registry (CKYCR)

Central KYC Record Registry (CKYCR)

The **Central KYC Record Registry (CKYCR)** is a centralized system introduced to simplify and streamline the process of **Know Your Customer (KYC)** compliance and caters to the Regulated Entities of all four Financial Sector Regulators. This initiative aims to create a centralized repository where individuals' and legal entities KYC details are stored in a digital format. The goal is to make KYC processing more efficient, secure, and easily accessible.

Key Features and Purpose:

1. **Centralized Repository**: CKYCR is intended to centralize KYC data, which includes identity and address details of individuals, Officially Valid Documents, that financial institutions previously had to collect individually.

2. **One-Time KYC Process**: Once an individual completes their KYC at one institution, they do not need to undergo the same process repeatedly with other institutions. Institutions can simply access the CKYCR to verify KYC details.

3. **Digital KYC**: KYC data stored in the CKYCR is in a digital format, making it easier for various financial institutions to retrieve and validate KYC information in real-time. This reduces the time and effort needed to process KYC information.

4. **Compliance with Regulations**: Financial institutions in India must adhere to RBI's guidelines for KYC compliance, and the CKYCR helps institutions meet these regulatory requirements more effectively and securely.

5. **Reduction in Fraud**: With a centralized system for KYC, there is less chance for discrepancies or fraudulent documentation. Financial institutions can cross-check the KYC data with the central registry to confirm an individual's details, reducing the risk of identity theft or fraud.

Process for CKYCR:

- **Upload**: Customers submit their KYC details at the time of establishing account based relationship (OVDs) to their respective financial institutions (banks, insurance companies, etc.), which then upload the information to the CKYCR.

- **Search and Download**: Once an individual's KYC is uploaded, financial institutions or other authorized entities can access this information with the customer's consent. This allows for quicker onboarding for new customers or for institutions seeking to update their customer records.

• **Updation**: If there are any changes in the customer's KYC details (such as a change of address or name), the individual can update the information with one financial institution, which will then update it across the system.

Benefits of CKYCR:

1. **Efficiency**: It makes the KYC process faster by reducing the need for customers to submit their details repeatedly across multiple institutions.

2. **Convenience**: Customers need to provide their KYC details once, after which they can access services from any participating institution without undergoing the entire KYC process again.

3. Cost-Effective: Financial institutions save time, resources, and costs associated with maintaining physical records and conducting repeated KYC checks.

4. Better Compliance: Institutions find it easier to comply with KYC norms and regulatory frameworks, especially regarding anti-money laundering (AML) and combating the financing of terrorism (CFT).
